

# Small Footprint, Big Results!

Discover the benefits of the new Kyocera devices today.

It is time to switch to Kyocera's Multifunctional Printers – all your printing needs in one device!

Here's why Kyocera A4 MFPs should be your next office solution:

## **Cost Savings**

With **Kyocera A4 MFPs**, you only pay for what you need. No more unnecessary expenses if you do not need 11 x 17 (Tabloid-ledger) or A3 size.

Our devices deliver an excellent **Total Cost of Ownership (TCO)** due to Kyocera's robust drums, long-lasting components, and high-capacity toners.

With Amorphous Silicon (a-Si) Drums, Kyocera changed what was always a consumable item to a component with a long product life equivalent! With a maximum output of 500,000 prints, our strongest drums are built to stand the test of time.

This means **fewer replacements, less downtime, and ultimately a lower cost** for you.

## Reliability and Serviceability

**Kyocera A4 MFPs** are renowned for their proven reliability and ease of serviceability, ensuring your business operations run smoothly with fewer breakdowns, enhanced productivity, and increased cost savings in the long run. There's no need for service visits to your office, meaning you can get straight to work when you need to.

## Software Solutions

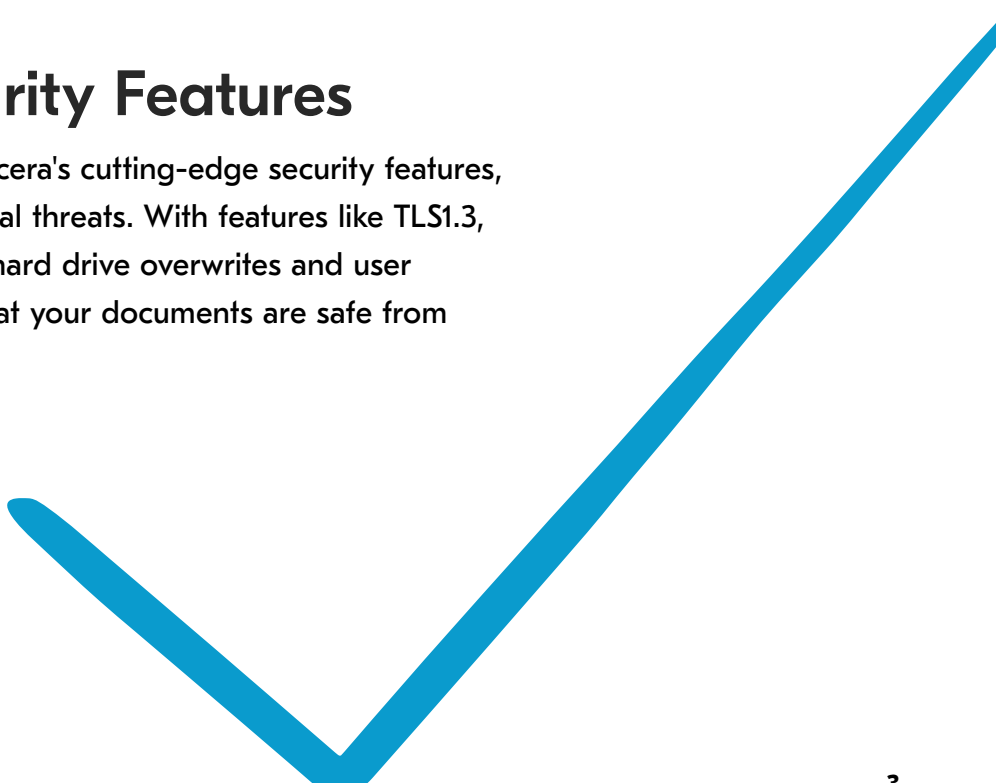

Our exclusive **HyPAS-enabled** devices offer an array of software solutions, making document management a breeze. We offer a wide range of software solutions to customize the device based on your specific business needs.

For example, with KCPS (Kyocera Cloud Print and Scan) you can lock devices and require users to authenticate themselves with ID cards to boost security. This solution also allows you to send prints from anywhere, and receive them on any Kyocera MFP, scan to your cloud storage platforms and much more!

## Advanced Security Features

Safeguard your sensitive data with Kyocera's cutting-edge security features, **protecting your business** from potential threats. With features like TLS1.3, secure boot, run-time integrity check, hard drive overwrites and user authentication, you can rest assured that your documents are safe from unauthorised access.

## Smaller Size, Bigger Impact

Enjoy the benefits of a smaller footprint without sacrificing performance. This is especially valuable if you have limited space but still require **high-quality printing** and **copying capabilities**.

## Energy Efficiency

Kyocera A4 MFPs are energy-efficient, helping you reduce your carbon footprint and energy bills. It's a **win-win** for both your business and the environment!

## Blazing Fast Speeds

**Get more done in less time** with Kyocera's rapid print and copy speeds. Need to print one page per second? Kyocera has got you covered.

# High-Volume Printing Capabilities

Do you think A4 MFPs are weak and only suitable for low volume usage?  
Kyocera did away with this myth a long time ago!

Whether you print a little or a lot, our A4 MFPs are up to the task, ensuring your business **can handle high volumes effortlessly**. Whether its 100 prints a month or 300,000 prints a month, Kyocera has an option for you.

**Elevate your office experience with Kyocera Multifunctional Printers – where reliability, innovation, and savings become one.**

Make the smart choice for your business.
